

Wilhelm and Else Heraeus – Physics School

The Early Phase of Planet Formation

February 18-22, 2008 – Physikzentrum Bad Honnef

Scope

A comprehensive overview of the current state of research about the early phase of planet formation in the solar system as well as extrasolar planetary systems.

Topics include

Solar system studies, accretion disk physics, particle growth processes, extrasolar planets.

Applications

This event is intended primarily for postgraduates and PhD students. Further information about the Physics School and online application form can be found at:

www.tat.physik.uni-tuebingen.de/~fgp/WS08

Deadline for applications: November 15, 2007

Organisation

Wilhelm Kley, Universität Tübingen
Cornelis Dullemond, MPI für Astronomie Heidelberg
Mario Trieloff, Universität Heidelberg

Contact

Birgit Moldovan: fgp@tat.physik.uni-tuebingen.de
